FACT SHEET: What if I don’t have health insurance?

Project HOME/Stephen Klein Wellness Center is a “Federally Qualified Health Center” or FQHC. This means that Project HOME/Stephen Klein Wellness Center is able to bill health insurance, as well as have more resources to continue to provide care to those without health insurance.

Below are some important policies that people who do not have health insurance should be aware of.

- Staff at Stephen Klein Wellness Center will ask patients who do not have health insurance to pay a fee.
- The amount of the fee will be determined by one’s household income and household size.
- The Receptionist who checks in patients at the front desk will need to know your annual income in order to determine what fee you owe.
- In order to qualify for the sliding fee discount plan patients need to complete a Sliding Fee Application and provide income documentation. Examples of income documentation are on the application. Our Benefits Counselor can assist patients to complete this application after they have checked-in at the front desk. The Benefits Counselor reviews your income documentation and approves the fee that you owe for that visit.
- We will ask you to complete a Sliding Fee Application on an annual basis if you continue to be without health insurance.
- If your income decreases and you think you may be eligible for a lower fee, please notify the Benefits Counselor and bring in your income documentation.
- **Very important**: We will provide the same high quality services even if someone does not have the means to pay all or any fee at the time of the visit.

In addition to the Sliding Fee Application, the Benefits Counselor at Stephen Klein Wellness Center is able to assist patients with the following financial services:

- Complete an application for Medical Assistance with the Department of Public Welfare
- Apply for a government subsidy and enroll in the Health Insurance Marketplace (a.k.a. Obamacare or [www.healthcare.gov](http://www.healthcare.gov)).
- Apply for permanent disability through the Social Security Administration
- Link people, including veterans, to housing, employment and educational opportunities through Project HOME
- Assist people with applying for other public benefits such as LIHEAP, SNAP, or WIC.

Philadelphia Department of Public Health (2009)
Information Sheet – Amalgam dental fillings containing mercury

The Philadelphia Department of Public Health has developed this information sheet pursuant to Section 1, Title 9, Chapter 9-3100 of the Philadelphia Code. Its purpose is to give you information about amalgam fillings that contain mercury and other dental filling options.

Your dentist's office should provide you with a copy of this sheet and answer any questions that you may have.

1. What is dental amalgam?

- Dental amalgam is the silver-colored material used to fill (restore) teeth that have cavities. It is one of several approved choices for filling cavities.

- Amalgam is made up of 50 percent mercury, a type of metal. Amalgam also contains other metals including silver, tin, copper, and zinc.

2. Is dental amalgam that contains mercury safe?

- There is ongoing research and discussion about the health effects of mercury in amalgam fillings.

- Small amounts of mercury are released as a vapor (gas) when amalgam fillings are placed or removed and through chewing. This mercury can be absorbed by the body and may build up over time.

- High levels of mercury can cause toxic effects on the brain, nervous system, and kidneys.

- Generally, people with amalgam fillings have higher levels of mercury in their blood and urine than people without amalgam fillings. The mercury levels in people with amalgam fillings are not high enough to be considered toxic.

- So far, well-done studies have shown that amalgam fillings do not impact behavior, information processing, and kidney function among children.

- It is more difficult to study the long-term effects of dental amalgam (effects that may appear later in life). Research in this area is still being performed.

- The Food and Drug Administration (FDA), which regulates the safety of medications and medical devices, has stated that “dental amalgams contain mercury, which may have neurotoxic effects on the nervous systems of developing children and fetuses.” The FDA is currently reviewing data and will make a decision about how strongly to regulate the use of amalgam.
3. Are there alternatives to amalgam?

- Yes. Amalgam is one of several approved choices for filling cavities.
- The most common dental filling used today is resin composite, which does not contain mercury. Resin is usually tooth-colored.
- Other filling materials are a form of glass cement, porcelain, gold, and other metals.

4. Aside from safety issues, what are the pros and cons of amalgam and alternatives?

- Amalgam fillings generally last longer than resin composite fillings, so they don’t need to be replaced as often.
- Resin composite fillings are tooth-colored and, therefore, are preferred by some people for cosmetic reasons.
- There may be a cost difference between resin composite and dental amalgam.
- To protect the environment, amalgam must be disposed of as a hazardous waste.

5. What should you do?

- Talk to your dentist, ask questions, and make an informed choice about dental fillings if you have a cavity.
- Prevent cavities through regular brushing, flossing, and dental exams.

Instructions for Completing Form
AUTHORIZATION FOR DISCLOSURE OF CONFIDENTIAL INFORMATION
(Form version 10.01.2018)

<table>
<thead>
<tr>
<th>Item Number</th>
<th>Explanation</th>
</tr>
</thead>
</table>
| 1 and 2     | **Boxes 1 and 2 are for Project HOME residents and participants.** This is where a resident or participant can tell us it is okay to share their confidential/personal information with other Project HOME programs.  

**Box #1 is an important box for a person receiving services from more than one PROJECT HOME department, for example, someone who is a RESIDENT, PATIENT AT PHHS, PRS PARTICIPANT, etc.,** so that staff from those departments have permission to speak to each other. The form makes it clear that if a person does not want to check Box #1, we will not refuse to serve them.  

Box #2 allows a person to tell us that they don’t want us to share information with certain programs. So, for example, a PATIENT who is also a RESIDENT may tell us not share their health information information with a Property Manager, or vice versa. This is where the Patient who is a Resident would tell us that. |
| 3           | This is where a person who is a PROJECT HOME RESIDENT, housing APPLICANT, PATIENT, PARTICIPANT, etc., can tell us where we can send information or request information from an **outside 3rd party,** such as a hospital, a family member, an Intensive Case Manager from DBH, or a home health aide, for example. If the person is agreeable, it is a best practice to obtain consent for the organization or entity, rather than a specific person. In this case, if that person is out of the office, or leaves their job, you can talk with someone else in their absence. |
| 4 and 5     | **Boxes 4 and 5 have to do with WHAT TYPE OF INFORMATION WE CAN OR CANNOT SHARE.**  

Checking Box #4 allows us to share any type of information that is necessary to coordinate services.  

Checking Box #5 tells us that it is okay to share information, but there are certain exceptions to what we can share (by checking the boxes below).  

“Covering the period(s) of:” refers to the period of time about which information may be shared. For example “a hospitalization that occurred in 2006” or “from intake to current” |
| 6           | Box 6 states that we will share their confidential information pertaining to AIDS/HIV status, mental health care/treatment or drug/alcohol treatment **UNLESS THEY CHECK OFF THE BOX TELLING US NO.** **If the person is okay with us sharing this information to coordinate their care, they don’t have to check anything.** |
| 7           | **One of the boxes here should be checked.** The top box states that the form is in force for one year from the date of signature. The bottom box allows the person to tell us how long they want the form in effect (less than one year) or to write in an event, such as termination of tenancy at PH. This form has to be reviewed annually with the patient/client/participant. |
